

**COMPLETE TURN-KEY
DESIGN + CONSTRUCTION
SERVICE FOR THE
HEALTHCARE INDUSTRY**

We create professional, functional health care environments from design through to construction.

Rahcon Medical create unique, quality, bespoke spaces for medical practitioners. Our point of difference is that we create environments that are functional, energy efficient and stylish while understanding the unique requirements and needs of medical rooms.

Rahcon Medical offers a truly comprehensive service that covers every stage of the design and construction process.

We are your single point of contact for the entire duration of your project, so you won't experience the frustration of having to deal with separate construction and fitout companies, tradespeople, architects, interior designers, builders or local authorities.

WHY CHOOSE US

When you choose Rahcon Medical to build your Practice, there are no salespeople or middlemen. You work direct with the most qualified in the industry – The Builder. We can answer your questions and guide you through the design and build process with expert knowledge and building experience.

QUALITY ASSURANCE

You can rest assured that your project will be completed to the highest quality workmanship, checked and signed off by the Rahcon Medical QA Check List. We also ensure that you only have insured and competent trades working on your practice.

"I have worked extensively within the medical and construction industry with most of my time spent honing skills in the area of bespoke and high-end fitouts . I am passionate about building unique practice environments for my clients and understand the specific requirements and needs of the medical industry.

My trades are all hand-picked and work exclusively for Rahcon Medical. This means the same team works on your project as your practice takes shape, from start to finish. With our dedicated team, I can ensure that your space is completed in a set time frame, and with an extra level of care and quality assurance. Our team treat your practice like it's our own - with absolute respect."
